

ACT Heritage Council

Entry to the ACT Heritage Register

Heritage Act 2004

20126. Aboriginal Places – Boboyan and Naas Localities

Part Block 7

District of BOOTH

Part Block 39

District of MOUNT CLEAR

Part Blocks 10 and 12

District of RENDEZVOUS CREEK

This entry which was previously part of the old heritage places or the old heritage objects registers (as defined in the *Heritage Act 2004*), as the case may be, is taken to be registered under the *Heritage Act 2004*.

Conservation Requirements (including Specific Requirements), as defined under the *Heritage Act 2004*, that are contained within this document are taken to be Heritage Guidelines applying to this place or object, as the case may be.

Information restricted under *the old heritage places register or old heritage objects register* is restricted under the *Heritage Act 2004*.

ACT Heritage Council

**AUSTRALIAN CAPITAL TERRITORY
INTERIM HERITAGE PLACES REGISTER**

For the purposes of s. 58(2) of the *Land (Planning and Environment) Act* 1991, a listing for the following places has been prepared by the ACT Heritage Council, for the purpose of including:

Aboriginal Places in the Districts of Rendezvous Creek, Booth and Mount Clear, Namadgi National Park, ACT.

- **Aboriginal Places in the Boboyan and Naas Localities (53)**

In an interim Heritage Places Register.

Copies of the listing are available for inspection at ACT Public Libraries and at all ACT Government Shopfronts.

The Secretary
ACT Heritage Council
GPO Box 144, Canberra, ACT 2601

Telephone: (02) 6207 7378 Facsimile: (02) 6207 2200

Notified: 6/5/2002 Notifiable Instrument 2002/122

IDENTIFICATION OF THE PLACES:

The places comprise 53 Aboriginal sites situated in the Boboyan and Naas localities within Blocks 10 and 12, District of Rendezvous Creek; Block 17, District of Booth; and Block 39, District of Mt Clear, ACT.

The Canberra 1:10 000 scale Adjusted Grid Coordinate (AGC) locations for the places are held within a database of ACT site locations. The AGC grid coordinates are restricted information under s.82 of the Act.

FEATURES INTRINSIC TO THE HERITAGE SIGNIFICANCE OF THE PLACES

The places comprise:

1. Locations where Aboriginal flaked stone artefacts have been recorded, any associated or potential archaeological deposit and their individually specified site buffer zones (47) (as described in Schedule 2)
2. Rock shelters and overhangs with associated archaeological deposit (5) (as specified in Schedule 2); and
3. Locations where potential archaeological deposits have been identified (1) (as specified in Schedule 2).

STATEMENT OF SIGNIFICANCE:

The ACT Aboriginal community considers all archaeological evidence of the occupation of the ACT by Aboriginal people to be significant. Aboriginal places have the capacity to demonstrate and provide information about ways in which Aboriginal people lived in the past. These places are part of a related body of evidence with potential to inform about a regional pattern of past Aboriginal landuse practices and settlement patterns. Details of their location and descriptive information about them builds upon and complements the considerable body of archaeological research that exists for the Canberra region.

These places are all part of the physical evidence of a traditional way of life that is no longer practised within the ACT. The presence of artefact scatters in these localities demonstrates past occupation and use of these places by Aboriginal people. Stone was an extremely important element of Aboriginal culture, essential in their technology and day to day living. Stone artefacts thus constitute an enduring record of Aboriginal technology and settlement patterns. The individual artefacts at the sites also have significance in their potential to contribute to research into Aboriginal stone technology.

Areas of identified archaeological potential and deposits within rock shelters and rock overhangs are considered to be significant cultural resources. They are highly likely to contain buried evidence of past occupation that is likely to be intact and in better condition than other surface exposed sites.

These places at Boboyan and Naas also have additional significance because they may be able to provide specific contextual cultural information relevant to historically documented groups and cultural practices. The use of the Boboyan locale by Aboriginal people is well attested in historical records and there is a likelihood that some sites may represent both long term traditional occupation as well as occupation in a later transitional cultural period affected by European settlement. The potential ability of the sites to yield information through research that will provide cultural context to nearby regionally and nationally significant places also affords them significance.

Conservation Policy and Specific Requirements:

In accordance with s.54(1) of the *Land (Planning and Environment) Act 1991*, a series of specific requirements have been identified as essential to the conservation of the heritage significance of these Aboriginal Heritage places. The specific requirements have been prepared to implement conservation policies and objectives developed for the places. Any actions that affect the conservation of the heritage significance of the places constitute 'development' for the purposes of the Act and approval will be required prior to undertaking the action. To undertake development without approval may be an offence.

General Conservation Policy – All Sites:

Aboriginal sites are to be conserved appropriately in accordance with their individual heritage significance, taking into account their Aboriginal and archaeological heritage values. Aboriginal sites and their components form an integral part of the landscape. The spatial relationships between sites as well as their geographic relationship to land constitute significant information with potential to inform about past cultural practices. The maintenance of records about sites and their geographic location is essential for the conservation of this information. Areas that have potential to contain Aboriginal heritage sites, including areas in which archaeological survey has not yet been undertaken, are to be managed in a way that permits the identification, significance assessment and conservation, where appropriate, of the Aboriginal cultural heritage resource.

Artefact Scatters (Open Scatters)

Artefact scatters constitute identifiably dense occurrences of stone artefacts and represent geographic foci of Aboriginal occupation related to a range of activities. Scatters may form as a result of single intensive occupation events or build up over hundreds or thousands of years due to repeated use or occupation of an area. The current appearance and structure of an artefact scatter site will depend upon the impact of events, termed *formation processes*, that have affected the artefacts during and after their deposition. Formation processes include both natural and cultural factors including soil erosion and deposition, other natural disturbances, reuse of places by Aboriginal people and later European landuse practices. The heritage values of artefact scatters are based upon their Aboriginal and archaeological significance.

Their significance to Aboriginal people is primarily based on their provision of evidence of the occupation of land by their ancestors. Artefact scatters thus comprise a demonstrable link to place for contemporary Aboriginal people. Their archaeological significance stems both from their physical representation of past cultural practice and for their potential to yield information through research that will increase our understanding of the past. The potential research value accorded to sites depends in turn on a range of factors including the individual quality and quantity of artefactual content, the condition and integrity of the site structure, whether the artefacts occur *in situ* within cultural deposit, and whether original relationships between artefacts are likely to be discernible and meaningful. The significance of artefact scatters may be thus ranked from low to high according to their value to Aboriginal people, their archaeological value and their condition and integrity. Their significance to Aboriginal people may not necessarily, however, relate to or accord with archaeological significance assessments.

Artefact Scatters of Low Conservation Value

Artefact scatters identified as having low conservation value are those sites with very few artefacts, with artefacts of a common type, with no associated cultural deposit and/or sites that have already been highly disturbed and where there is negligible potential for them to provide further information. Such sites may either be conserved *in situ* or be the subject of a program of archaeological investigation and salvage as recommended by the Heritage Council, after consultation with the relevant Aboriginal organisations.

All Aboriginal sites are considered to be significant by the Aboriginal community. Aboriginal people generally express the desire for all cultural heritage sites to be left *in situ* wherever feasible.

Conservation Objective – record and retain where feasible, otherwise salvage

Specific Requirements – Artefact Scatters of Low Conservation Value

- L1** Information regarding the description and specific location of the place shall be held in a database of ACT Aboriginal heritage sites.
- L2** Actions that would affect the conservation of the heritage significance of the place constitute 'development' for the purposes of the Act.
- L3** Works that improve or benefit the conservation of the heritage significance of the place are permitted. Proponents of such works shall advise the Heritage Council and consult with the relevant Aboriginal organisations about the proposal. The agreement of the Heritage Council must be obtained prior to works being undertaken.
- L4** Development proponents shall be aware that the presence of an Aboriginal heritage site or sites within a development area may impose constraint upon the development. The nature of the constraint will vary according to the assessed significance of the site/s and the potential heritage impact of the development. For *Artefact scatters* assessed as being of low conservation value the development constraint may range from nil constraint to a requirement to undertake further survey or investigation of a place, further recording of a place and/or collection of artefacts or other cultural materials.
- L5** The ACT Heritage Council shall advise the proponent of the degree of constraint, based upon the nature of the development and its potential heritage impact and the significance assessment of the site/s, and in consultation with the relevant Aboriginal organisations.
- L6** Artefacts and/or any other identified significant fabric or components of the site shall not be removed, damaged, altered or disturbed without the prior agreement of the Heritage Council, in consultation with the relevant Aboriginal organisations.
- L7** Any further investigation of sites and/or collection of artefacts and/or salvage of site fabric or other cultural materials agreed to by the Heritage Council shall be undertaken by a qualified archaeologist in consultation with the relevant Aboriginal organisations, in accordance with a proposed methodology provided to and endorsed by the Heritage Council, in consultation with the relevant Aboriginal organisations.
- L8** Salvaged or collected materials shall be archived by the Heritage Unit, pending establishment of an appropriate storage facility.
- L9** If collection or salvage is advised by the Heritage Council then, following completion of salvage works as advised by the Heritage Council only requirement L1 shall apply to the identified place.

Artefact Scatters of Medium Conservation Value

Artefact scatters identified as having medium conservation value include sites with high artefact numbers and/or density and/or with identified or potential associated deposit. They are also sites of common type and character. Sites of medium conservation value may either be conserved *in situ* or be the subject of a program of archaeological investigation and salvage. The investigation and salvage may include collection of artefacts, subsurface testing, excavation or other investigative techniques as recommended by the Heritage Council, after consultation with the relevant Aboriginal organisations.

All Aboriginal sites are considered to be significant by the Aboriginal community. Aboriginal people generally express the desire for all cultural heritage sites to be left *in situ* wherever feasible.

Conservation Objective – record and retain, where feasible, or salvage

Specific Requirements – Artefact Scatters of Medium Conservation Value

- M1** Information regarding the description and specific location of the place shall be held in a database of ACT Aboriginal heritage sites.
- M2** Actions that would affect the conservation of the heritage significance of the place constitute 'development' for the purposes of the Act.
- M3** Works that improve or benefit the conservation of the heritage significance of the place are permitted. Proponents of such works shall advise the Heritage Council and consult with the relevant Aboriginal organisations about the proposal. The agreement of the Heritage Council must be obtained prior to works being undertaken.
- M4** Development proponents shall be aware that the presence of an Aboriginal heritage site or sites within a development area may impose constraint upon the development. The nature of the constraint will vary according to the assessed significance of the site/s and the potential heritage impact of the development. For *Artefact scatters* assessed as being of medium conservation value the development constraint may range from nil constraint to a requirement to undertake further survey or investigation of all or part of the place, further recording of a place and/or collection of artefacts or other cultural materials, subsurface testing, monitoring during development or salvage excavation, or a requirement to conserve a representative part of the site whilst carrying out further works on the remainder.
- M5** The ACT Heritage Council shall advise the proponent of the degree of constraint, based upon the nature of the development and its potential heritage impact and the significance assessment of the site/s, and in consultation with the relevant Aboriginal organisations.
- M6** Artefacts and/or any other identified significant fabric or components of the site shall not be removed, damaged, altered or disturbed without the prior agreement of the Heritage Council, in consultation with the relevant Aboriginal organisations.
- M7** Any further investigation of sites and/or collection of artefacts and/salvage of site fabric or other cultural materials agreed to by the Heritage Council shall be undertaken by a qualified archaeologist in consultation with the relevant Aboriginal organisations, in accordance with a proposed methodology provided to and endorsed by the Heritage Council, in consultation with the relevant Aboriginal organisations.
- M8** Salvaged or collected materials shall be archived by the Heritage Unit, pending establishment of an appropriate storage facility.
- M9** If collection or salvage of all of the place is advised by the Heritage Council then, following completion of salvage works as advised by the Heritage Council only requirement M1 shall apply to the identified place.
- M10** The place may not be promoted for public use, interpretation or visitation without approval from the Heritage Council in consultation with the relevant Aboriginal groups. Any proposed educational and presentational uses of the place shall be considered by the ACT Heritage Council and relevant Aboriginal organisations on the basis of whether sufficient information is provided about their impacts and potential impacts upon the place.
- M11** Any proposed research that may potentially impact upon the heritage significance of the place shall be conducted in accordance with a research proposal endorsed by the Heritage Council after consultation with the relevant Aboriginal organisations.

Artefact scatters of High Conservation Value

Artefact scatters identified as having high conservation value include sites with high artefact numbers and/or density, with rare, or representative artefacts, and/or with identified or potential associated deposit. They may also be sites of good preservation and condition where the original site structure and contents have survived. Sites of high conservation value are to be conserved *in situ* in an appropriate setting, where feasible. However site investigations for the purposes of improving their conservation or research may be permitted, provided that the relevant Aboriginal organisations have been consulted about any proposed works and agree to their occurrence.

The identification of appropriate conservation actions may require preparation of a Conservation and Management Plan. Actions that propose impact upon their identified heritage values will be considered on a case by case basis by the Heritage Council in consultation with the relevant Aboriginal organisations, and with reference to the applicable Conservation and Management Plan or Research Plan, if prepared.

All Aboriginal sites are considered to be significant by the Aboriginal community. Aboriginal people generally express the desire for all cultural heritage sites to be left *in situ* wherever feasible.

Conservation Objective – record, retain and actively conserve

Specific Requirements – Artefact Scatters of High Conservation Value

- H1** Information regarding the description and specific location of the place shall be held in a database of ACT Aboriginal heritage sites.
- H2** Actions that would affect the conservation of the heritage significance of the place shall constitute 'development' for the purposes of the Act.
- H3** Works that improve or benefit the conservation of the heritage significance of the place are permitted. Proponents of such works shall advise the Heritage Council and consult with the relevant Aboriginal organisations about the proposal. The agreement of the Heritage Council must be obtained prior to works being undertaken.
- H4** Development proponents shall be aware that the presence of an Aboriginal heritage site or sites within a development area may impose constraint upon the development. The nature of the constraint will vary according to the assessed significance of the site/s and the potential heritage impact of the development. For *Artefact scatters* assessed as being of *high conservation value* the development constraint may range from nil constraint to a requirement to undertake investigation of a place, prepare and/or implement a Conservation Management Plan for the place, to an inability to undertake part or all of the development within the affected area/s.
- H5** The ACT Heritage Council shall advise the proponent of the degree of constraint, based upon the nature of the development and its potential heritage impact and the significance assessment of the site/s, and in consultation with the relevant Aboriginal organisations.
- H6** Artefacts and/or any other identified significant fabric or components of the site shall not be removed, damaged, altered or disturbed without the prior agreement of the Heritage Council, in consultation with the relevant Aboriginal organisations.
- H7** Any further investigation of sites and/or collection of artefacts and/or other cultural materials agreed to by the Heritage Council shall be undertaken by a qualified archaeologist in consultation with the relevant Aboriginal organisations, in accordance with a proposed methodology provided to and endorsed by the Heritage Council, in consultation with the relevant Aboriginal organisations. Any proposed research that may potentially impact upon the heritage significance of the place shall be conducted in accordance with a research proposal endorsed by the Heritage Council after consultation with the relevant Aboriginal organisations.
- H8** Salvaged or collected materials shall be archived by the Heritage Unit, pending establishment of an appropriate storage facility.
- H9** If collection or salvage of all of the place is advised by the Heritage Council then, following completion of salvage works as advised by the Heritage Council only requirement A1 shall apply to the identified place.

- H10** The place may not be promoted for public use, interpretation or visitation without approval from the Heritage Council in consultation with the relevant Aboriginal groups. Any proposed educational and presentational uses of the place shall be considered by the ACT Heritage Council and relevant Aboriginal organisations on the basis of whether sufficient information is provided about their impacts and potential impacts upon the place.
- H11** Any proposed research that may potentially impact upon the heritage significance of the place shall be conducted in accordance with a research proposal endorsed by the Heritage Council after consultation with the relevant Aboriginal organisations.
- H12** Prior to the approval of any proposed development that may potentially impact upon the heritage significance of the place the proponent shall prepare a Conservation and Management Plan for the place. The plan must be provided to the Heritage Council for endorsement. Prior to giving such endorsement the Heritage Council will consult the relevant Aboriginal groups about the management of the site. Any subsequent development of the place shall then be undertaken in accordance with the endorsed plan, unless the Heritage Council advises the proponent otherwise.

Areas of Potential Aboriginal Heritage Sensitivity

Areas of potential Aboriginal Heritage sensitivity or potential archaeological deposits (PADs) are generally areas defined in the course of professional field or predictive archaeological assessment. They include areas where sites or artefacts are identified as likely to occur, but where ground visibility precludes site or artefact detection or where field survey has not been undertaken. Knowledge of regional and/or local patterns of site occurrence and site formation processes is generally prerequisite for the identification of areas of archaeological potential. Further investigation of areas of archaeological potential may be required prior to or during development. Such further investigation may include sub-surface testing, monitoring or excavation. The significance of such areas will ultimately depend on the outcome of the further investigations.

All Aboriginal sites are considered to be significant by the Aboriginal community. Aboriginal people generally express the desire for all cultural heritage sites to be left *in situ* wherever feasible.

Conservation Objective – record, retain, investigate, reassess

Specific Requirements – Areas of Potential Aboriginal Heritage Sensitivity

- P1** Information regarding the description and specific location of the place shall be held in a database of ACT Aboriginal heritage sites.
- P2** Actions that would affect the conservation of the heritage significance of the place constitute 'development' for the purposes of the Act.
- P3** Works that improve or benefit the conservation of the heritage significance of the place are permitted. Proponents of such works shall advise the Heritage Council and consult with the relevant Aboriginal organisations about the proposal. The agreement of the Heritage Council must be obtained prior to works being undertaken.
- P4** Areas of potential Aboriginal heritage sensitivity shall be further investigated to assess their Aboriginal and archaeological significance prior to their development. Development proponents shall be aware that the presence of such a place within a development area may impose constraint upon the development. For *Areas of Potential Aboriginal heritage Sensitivity* the development constraint will occur in two stages. Initially the constraint may range from nil constraint to a requirement to undertake further investigative work such as additional field survey and/or subsurface testing. Any subsequent constraint will vary according to the assessed significance of any Aboriginal cultural heritage materials located within the area and the potential heritage impact of the development.

- P5** The ACT Heritage Council shall advise the proponent of the degree of constraint, based upon the nature of the development and its potential heritage impact and the significance assessment of the site/s, in consultation with the relevant Aboriginal organisations.
- P6** Should further investigation determine that Aboriginal archaeological materials are present in the place of archaeological potential then records about the place shall be updated, and the Heritage Council shall be consulted about the appropriate management of the place. In providing such advice the Heritage Council shall consult with the relevant Aboriginal organisations.

SCHEDULE 2			RESTRICTED INFORMATION
Site Description	Location	Specific Requirements (as per Schedule 1)	Precise Location - The precise location details as provided are based upon the visually apparent extent of a place inclusive of a small buffer area . There is always a possibility that a site may extend further than indicated by its surface appearance. (Canberra 1:10 000 Adjusted Grid Coordinates are restricted information)
<p>Boboyan Pines 1 A small low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996 Partial Collection occurred in 1996</p>	Block 10 District of Rendezvous Creek	Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 15 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 2 An extensive very low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996 Partial collection occurred in 1996</p>	Block 10 District of Rendezvous Creek	Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 30 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>

<p>Boboyan Pines 3 An extensive open scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996 Partial collection occurred in 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 150 m radius around the AGC reference.</p>
<p>Boboyan Pines 4 An extensive very low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, however there is potential for further archaeological materials in the vicinity.</p> <p>Recorded – Williams and Barber 1996 Partial collection occurred in 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9 and P1-P2-P3-P4-P5-P6</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 120 m radius around the AGC reference.</p>
<p>Boboyan Pines 5 Aka Hospital Creek 2 A locality containing a low -density scatter of flaked stone artefacts and a small rock overhang with potential cultural deposit. The condition of the scatter area is recorded as poor, with low potential for undisturbed deposit. However there is high potential for further surface artefacts to be present in the vicinity.</p> <p>Recorded – Williams and Barber 1996 Partial collection occurred in 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9 and P1-P2-P3-P4-P5-P6</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 50 m radius. The place is located within a circular area of 100 m radius around the AGC reference.</p>
<p>Boboyan Pines 6 An extensive open scatter of flaked stone artefacts, including some formal implement types. Condition of part of the site area is recorded as poor, but there is potential for further materials in the locality.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9 and P1-P2-P3-P4-P5-P6</p>	<p>Grid References Map No. 192-546</p> <p>The location of the place is defined as the area within a radius of 50 m of a line connecting the two grid coordinates.</p>

<p>Boboyan Pines 7 A low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996 Partial collection occurred in 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 15 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 8 An extensive medium density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, but there is high potential for further artefacts and disturbed cultural deposit, in the locality.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Medium Conservation Value: M1, M2, M3, M4, M5, M6, M7, M8, M9, M10, M11 and P1- P2-P3-P4-P5-P6</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a 100 m radius of a line connecting the two grid coordinates .</p>
<p>Boboyan Pines 9 A small and low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 10 A low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a 30 m radius of a line connecting the two grid coordinates.</p>

<p>Boboyan Pines 11 An extensive low -density scatter of flaked stone artefacts. Condition of the site area is recorded as good with high potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9 and P1-P2-P3-P4-P5-P6</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 80 m radius around the AGC reference.</p>
<p>Boboyan Pines 12 A small and low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with some potential for further artefacts to be present.</p> <p>Recorded – Williams and Barber 1996 Partial collection was undertaken in 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 15 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 13 A scatter of flaked stone artefacts in a disturbed context. Condition of the site area is recorded as poor, with low potential for undisturbed deposit. The artefacts are representative of a single flaking event or 'flaking floor' and are therefore of considerable archaeological interest.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Moderate Conservation Value: M1, M2, M3, M4, M5, M6, M7, M8, M9, M10, M11 and P1-P2-P3- P4-P5-P6</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 14 <i>aka G9, CAS 861</i> An extensive scatter of flaked stone artefacts. Condition of the site area is recorded as partly disturbed although there is potential for further artefacts at the location. The place may be coincident with an occupation site mentioned in early documentary records of the region. It has also been suggested that Boboyan Pines sites 14 and 31 are part of a larger site complex evident along both sides of Boboyan Creek.</p> <p>Recorded – Williams and Barber 1996 Partial collection was undertaken in 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 50 m radius. The place is located within a circular area of 100 m radius around the AGC reference.</p>

<p>Boboyan Pines 15 A low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996 Partial collection was undertaken in 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 16 A low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 17 An open scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit. A number of technologically diagnostic artefacts were recorded in the scatter and it is therefore of some archaeological interest.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9 and P1-P2-P3-P4-P5-P6</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 15 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 18 A single flaked stone artefact in a disturbed context.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 10 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>

<p>Boboyan Pines 19 A single artefact find.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 15 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 20 A small and low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9 and P1-P2-P3-P4-P5-P6</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 50 m radius. The place is located within a circular area of 100 m radius around the AGC reference.</p>
<p>Boboyan Pines 21 A single flaked stone artefact located in a disturbed context.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 10 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 22 A small and low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996 Partial collection was undertaken in 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 50 m radius around the AGC reference. The place is located within a circular area of 100 m radius around the AGC reference.</p>

<p>Boboyan Pines 23 A small and low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996 Partial collection of the site was undertaken</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 24 A small and low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams and Barber 1996 Partial collection was undertaken in 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 25 A small and low -density scatter of flaked stone artefacts. Potential for further artefacts at the location was noted.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 26 A single artefact find.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 10 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>

<p>Boboyan Pines 27 <i>Aka Hospital Creek 1</i> A low -density scatter of flaked stone artefacts. Potential for further artefacts in the locality was noted.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 15 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 28 A low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor. Some technologically diagnostic artefacts were recorded at the site rendering it of some archaeological interest.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 29 An extensive low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a 30 m radius of a line connecting the 2 grid coordinates.</p>
<p>Boboyan Pines 30 A open scatter of flaked stone artefacts. Condition of part of the site area is recorded as poor, however there is potential for surrounding areas to contain relatively undisturbed parts of the site.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 50 m radius. The place is located within a circular area of 100 m radius around the AGC reference.</p>

<p>Boboyan Pines 31 A small and low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit. This site location has been linked to historic accounts describing Aboriginal occupation in the Boboyan locality. It has also been suggested that Boboyan Pines sites 14 and 31 are part of a larger site complex evident along both sides of Boboyan Creek.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9 and P1-P2-P3-P4-P5-P6</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 50m radius. The place is located within a circular area of 100 m radius around the AGC reference.</p>
<p>Boboyan Pines 32 A single artefact find considered to be out of situ and potentially imported in road fill.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 15 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 33 A single artefact find.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 10 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Boboyan Pines 34 A rockshelter with occupation deposit, and surface artefacts.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Artefact scatter of high significance – H1, H2, H3, H4, H5, H6, H7, H8, H9 and area of Potential Aboriginal heritage sensitivity P1, P2, P3, P4, P5, P6, P7</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 50 m radius. The place is located within a circular area of 100 m radius around the AGC reference.</p>

<p>Boboyan Pines 35 A potential archaeological deposit.</p> <p>Recorded – Williams and Barber 1996</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Area of Potential Aboriginal Heritage Sensitivity P1, P2, P3, P4, P5, P6, P7</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 50 m radius. The place is located within a circular area of 100 m radius around the AGC reference.</p>
<p>Naas Creek 1 A small and low -density scatter of flaked stone artefacts. Condition of the site area is recorded as poor, with low potential for undisturbed deposit.</p> <p>Recorded – Williams 1996</p>	<p>Block 39 District of Mount Clear</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Greenfield 2 aka CAS 862 A rock overhang with occupation deposit.</p> <p>Recorded – Winston Gregson 1978</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>An Area of Potential Aboriginal Heritage Sensitivity P1, P2, P3, P4, P5, P7</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Bogong Creek 1 An open scatter of flaked stone artefacts with potential occupation deposit.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>

<p>Bogong Creek 4 A single artefact find located in a wider area of archaeological potential.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9 and P1, P2, P3, P4, P5, P6</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Bogong Creek 7 An open scatter of flaked stone artefacts with potential occupation deposit.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Bogong Creek 8 An open scatter of flaked stone artefacts with potential occupation deposit.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Bogong Creek 11 A small rock shelter with occupation deposit.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Area of potential Aboriginal heritage sensitivity P1, P2, P3, P4, P5, P6, P7</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>

<p>Bogong Creek 12 <i>aka G9</i></p> <p>A small rock shelter with occupation deposit and artefact scatters in the vicinity. The shelter is located within a broader complex of places identified as G9 in earlier study of the locality.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 10 District of Rendezvous Creek</p>	<p>Area of potential Aboriginal heritage sensitivity P1, P2, P3, P4, P5, P6, P7</p>	<p>Grid Reference</p> <p>Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Hospital Creek 3</p> <p>A small rock shelter with occupation deposit and artefact scatters in the vicinity.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Area of potential Aboriginal heritage sensitivity P1, P2, P3, P4, P5, P6, P7</p>	<p>Grid Reference</p> <p>Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Hospital Creek 4</p> <p>An open scatter of flaked stone artefacts.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference</p> <p>Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Hospital Creek 5</p> <p>An open scatter of flaked stone artefacts and potential localised source of stone material.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference</p> <p>Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 40 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>

<p>Hospital Creek 6 An open scatter of flaked stone artefacts.</p> <p>Recorded – Goodrum 1995</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 60 m radius. The place is located within a circular area of 100 m radius around the AGC reference.</p>
<p>Old Boboyan Road 1 An open scatter of flaked stone artefacts in a highly disturbed context.</p> <p>Recorded – Barber 1997</p>	<p>Block 17 District of Booth, ACT</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-552</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Old Boboyan Road 2 A single artefact find in a highly disturbed context.</p> <p>Recorded – Barber 1997</p>	<p>Block 17 District of Booth, ACT</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-552</p> <p>The location of the place is defined as the area within a circle of 10 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Old Boboyan Road 3 An open scatter of flaked stone artefacts in a highly disturbed context.</p> <p>Recorded – Barber 1997</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-552</p> <p>The location of the place is defined as the area within a circle of 40 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>

<p>Old Boboyan Road 4 An open scatter of flaked stone artefacts in a highly disturbed context.</p> <p>Recorded – Barber 1997</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-552</p> <p>The location of the place is defined as the area within a circle of 25 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
<p>Old Boboyan Road 5 An open scatter of flaked stone artefacts in a highly disturbed context.</p> <p>Recorded – Barber 1997</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 100 m radius around the AGC reference.</p>
<p>Old Boboyan Road 6 An open scatter of flaked stone artefacts in a highly disturbed context.</p> <p>Recorded – Barber 1997</p>	<p>Block 12 District of Rendezvous Creek</p>	<p>Artefact Scatter of Low Conservation Value: L1, L2, L3, L4, L5, L6, L7, L8, L9</p>	<p>Grid Reference Map No. 192-546</p> <p>The location of the place is defined as the area within a circle of 10 m radius. The place is located within a circular area of 50 m radius around the AGC reference.</p>
