Subject: Freedom of Information Request
Date: Tuesday, 27 November 2018 4:10:53 PM

Hello Environment

I would like to make a freedom of information request.

I would like to request and reports, studies, presentations, or correspondence relating to the actual or potential environmental impacts on wildlife and birdlife of the operation of drones for commercial purposes (including trials) within the ACT from 2016 to the present.

You can contact me (and provide any documentation) to this email address or otherwise contact me on [REDACTED]

Thank and regards

[REDACTED]

Subject: Re: FOI Request 18/35867 - Potential environmental impacts of operation of drones

Hello Angelina

Thanks for your email

In answer to your questions

Time frame - I'd like to amend the time frame from 1 Sept 2017 to the present

I'm happy to restrict the search to final reports and studies as they relate to the environmental impacts to wildlife and birdlife. If there are any internal presentations on this issue, I'd like them to be included within scope. I am not interested in any community or external facing presentations. If there are any reports or studies which are currently being researched or drafted, please could these be identified so that I can refresh my request when these are in final form.

However, I'd like to add the details of any complaints received as they relate to environmental impacts to wildlife and birdlife.

Thanks
