

Dear [REDACTED]

Freedom of information request: 18/11248 - Unions ACT's Community Zero Emissions Grant

I refer to your application under section 30 of the *Freedom of Information Act 2016* (the Act), received by the Environment, Planning and Sustainable Development Directorate (EPSDD) on 26 April 2018, in which you sought access to Unions ACT's Community Zero Emissions Grant documents.

Specifically, you are seeking:

'documents relating to Unions ACT's Community Zero Emissions grant application, acceptance, and withdrawal.'

I am an Information Officer appointed under section 18 of the Act to deal with access applications made under Part 5 of the Act.

Following your agreement to extend the timeframe for decision, EPSDD is required to make a decision on your access application by 23 July 2018.

Decision on access

Searches were completed for relevant documents and 18 documents were identified that fall within the scope of your request.

I have included as **Attachment A** to this decision the schedule of relevant documents. This provides a description of each document that falls within the scope of your request and the access decision for each of those documents.

Documents identified as relevant to your request contain information that I consider to be:

- contrary to the public interest information under schedule 1; or
- information that would, on balance, be contrary to the public interest to disclose under the test set out in section 17 of the Act.

I have decided to grant access under section 50 of the Act, to copies of documents with deletions applied to information that I consider would be contrary to the public interest to disclose under schedule 1.

I have decided to refuse access to five documents as I consider them to be contrary to the public interest information under schedule 1.

My access decisions are detailed further in the following statement of reasons and the documents released to you are provided as **Attachment B** to this letter.

Material considered

In reaching my access decision, I have taken the following into account:

- the FOI Act, particularly sections 38, 17 and Schedule 1 and 2; and
- the content of the documents that fall within the scope of your request.

Exemptions claimed

My reasons for deciding not to grant access to the identified documents and components of these documents are as follows:

Contrary to the public interest information under schedule 1 of the Act

Document reference numbers 14-18 are entirely composed of information subject to legal professional privilege – Schedule 1.2 of the Act, and therefore I believe to be contrary to the public interest under schedule 1 of the Act.

Contrary to the public interest information under Schedule 2 of the Act

The Act recognises the right of every person to obtain access, under its provisions, to government information (see section 7, the Act). As an Information Officer I am required to allow access to information subject to the Act unless, on balance, disclosure would be contrary to the public interest (see section 17, the Act).

In assessing the public interest, I must apply the cascading test set out by section 17 of the Act which requires consideration of factors favouring disclosure, any favouring nondisclosure and the balance of those factors when considered cumulatively.

In relation to the documents identified as falling within the scope of your request (scheduled with the reason of Personal privacy, Schedule 2.2 (a)(ii)), section 17 applies as follows.

Personal Information

I have considered the release of personal information and my view in this instance is that the identification of individuals would not serve to further open discussion, government accountability, informed debate and the provision of contextual or background information.

I am satisfied that the disclosure of this personal information could reasonably be expected to prejudice the protection of an individual's right to privacy under the *Human Rights Act 2004*. This is a factor favouring nondisclosure under Schedule 2.2 (a)(ii) of the Act.

In balancing public interest considerations I am satisfied that, on the information available, disclosure of the identified personal information of members of the public may constitute a breach of privacy and is therefore disclosure is contrary to the public interest.

Online publishing – disclosure log

Under section 28 of the Act, EPSDD maintains an online record of access applications called a disclosure log. Your original access application, my decision and documents released to you in response to your access application will be published in the EPSDD disclosure log no sooner than three days after date of decision. Your personal contact details will not be published.
