Case Subject: EDP input into authorisation of the TTMP for 71 Constitution Avenue

Case Location Details: [Redacted]

Case Text Description:

I am requesting information via FOI regarding any communication provided by the EDP to the National Capital Authority that might have informed the temporary traffic management plan that has been authorised for construction at 71 Constitution Avenue. Specifically I need any communication regarding public safety aspects that would impact the street at Getting Crescent which is now totally unsafe for pedestrians and cyclists. Although the NCA had authority and granted the TTMP, they were required to consult the EDP and I need any records of this consultation. So far, my contact with EDP has been with Zebedee Mahoney | Team Leader – DA Lodgement who simply forwarded my request for information to the NCA. I attach the authorised TTMP for clarification of the site and details.

Case includes attachments.
