---

Dear EPSDD FOI,

The 2009 ACT Eastern Broadacre Economic and Strategic Planning Direction Strategy identified the capacity of land in the study area, including in the Majura Valley, to meet the demand for industrial land. The 2009 Strategy was supported by studies into the demand and supply of industrial land.

I am requesting access under the Freedom of Information Act 2016 to the following documents:

- Studies into the supply and demand for industrial land in the ACT undertaken by private consultants or internally within the Environment, Planning and Sustainable Development Directorate or the ACT Planning and Land Authority that would apply to the Eastern Broadacre Study area.
- Briefs and other documents to the Chief Planner, Director-General, Environment, Planning and Sustainable Development and the Minister for Planning on the studies into the supply and demand for industrial land that would apply to the Eastern Broadacre Study area.

If you have any enquiries regarding this request can you please contact [REDACTED] at [REDACTED] or on [REDACTED]

Kind Regards,
