

CONFLICT OF INTEREST DECLARATION

Name of Employee: Dr Michael Mulvaney

Position Occupied: Senior Conservation Officer - Offsets

Circumstance to be declared: For 30 years I have been an active member of the Park Care community group Red Hill Regenerators. From time to time various developments have been proposed on Red Hill and I have spoken out both formerly and informally, publicly and privately against these.

Duties affected by the circumstance declared:

My position involves providing conservation advice within the ACT Government. If I have been asked to provide advice relevant to Red Hill, I have always declared a potential conflict of interest and let those seeking the advice determine whether they still want my advice or seek it elsewhere. My alleviation with Red Hill is well known so once or twice my managers have not informed me about a request for advice and simply sought advice elsewhere. As Red Hill is designated land most planning and development decisions are not an ACT Government concern.
